

Classic Series

Basement Doors

POWDER COAT FINISH

*B*ilco Classic Series steel basement doors are now offered with a factory-applied polyester powder coat finish. The polyester resin provides a durable, weather-resistant coating. Cured at higher temperatures than most wet coatings, the result is a tougher and chip-resistant coating, providing both a decorative and protective finish.

*It's only Genuine Bilco...
if it says so on the handle*

POWDER COAT FINISH

Classic Series

Basement Doors

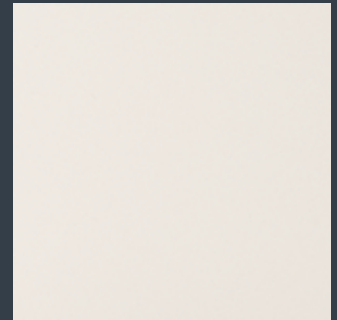

Eliminates the time and expense required by the homeowner to paint the door after it is installed

Advantages & Standard Features:

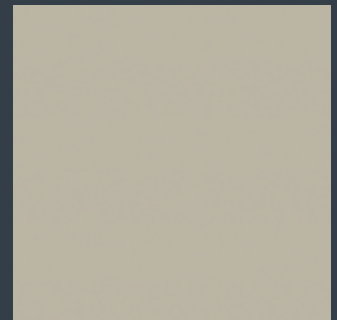

- Offered in four standard colors (white, sandstone, light gray and brick) with a textured finished
- Available on our most popular steel sided doors, sizes B and C, and extension panels
- Offers a superior finish to conventional paint
- Makes the Bilco door durable, attractive and extremely scratch-resistant
- Is ideal for exterior applications
- Retains exterior color longer
- Process is environmentally friendly and virtually pollution-free

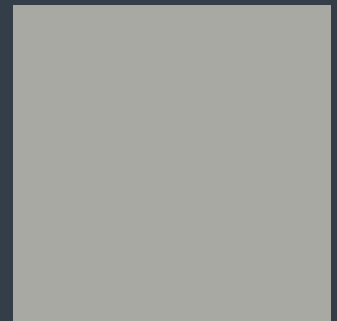

Matching foundation plates with a powder coat finish are now available

White

Sandstone

Light Gray

Brick

Due to the printing process, colors shown approximate as close as possible to the actual paint colors.
